# Exhibition “War in Peace”

Come and discover the new exhibition “War in Peace” visible at Fort Leveau for the first time!

Produced in collaboration with the Peace and Conflicts Association, the Bondues Resistance Museum and the Lille Gunners Museum, this new exhibition invites you to discover the context of the immediate post-war period.
Through 5 themes (commemoration, destruction, liberation, occupation and reconstruction), the exhibition paints a picture of the situation during the years 1919 and 1920 and draws a parallel with current events.

The exhibition is accessible on the usual opening days and times of the museum.
