Application FORT DE LEVEAU

W e now provide you with a free application that will guide you throughout your journey.

On the principle of the audio guide, once downloaded, the application will allow you to discover the functioning of the fort and the course of the battle of Maubeuge. You will also be able to listen to many testimonies relating to the bombardment of the fort.

The application can be downloaded from google play:

and on the apple store:

Once on the site, throughout your journey, you will meet inside, but also
outside, QR Codes.
Scan them with your smartphone to access scene content via the scan button.
